

Activity List

Looking / Research	Understanding / Synthesis	Making / Prototyping	Executing / Relationship Management
Surveys	User Flow - Current State	User Flow - Desired State	User Story Mapping
Interviews	Jobs to be Done	Wireframing	UX review tasks for dev team
Concept Testing (hypothesis is high level but needs to be de-risked)	Painpoint Analysis	New prototype (local interaction change)	Agile team ceremonies (standup, refinement, retro)
Design pattern evolution	Data Mapping	New pattern design	User onboarding / Rollout support
A/B testing	Journey Map	New prototype with E2E flow	Documentation creation or updating
Design Leadership Review	Stakeholder Mapping	Concept Poster	Regular Stakeholder Updates
Usability Testing	Visioning workshop	Vision documentation	Business Leadership Communications
Competitive analysis (user or market landscape exploration)	Problem framing	Rough and Ready Prototyping (lo-fi make to learn research)	
Champion/Challenger testing	Persona & archetype creation	Brainstorm session	
User & market landscape exploration	Feasibility & risk assessment	Initial vision concepts	
Stakeholder interviews/alignment		Object Oriented Design (Data-Focused Generative Design)	
Contextual inquiry		Gigamap	
		Service bluepring	
		Ecosystem Map	
		Dependency Map
